SAFE FROM START TO FINISH

# ABOUT US

Blitz Industrial was founded in 2022 by directors Billy McMullen and Jake Menke. With over 25 years combined industry experience in Fabrication, logistics, cranes and rigging. Their aim is to provide a service that exceeds client expectation ensuring the highest regard to safety and quality.

Our most valuable asset is our team who are handpicked and know what it takes to complete your project safely and efficiently as they have a passion for all things heavy industry.

We offer off site fabrication in our workshop located in Gladstone, onsite installs across Australia, mechanical repairs, cranes and rigging, personnel and equipment, project supervision and management.

We pride ourselves in taking a safe and quality approach to all projects, our team understands the importance of stopping a job if conditions change, assessing the risks and implementing the necessary controls.

By entrusting Blitz Industrial, you gain access to a team fervently dedicated to prioritising safety, delivering exceptional results , and consistently exceeding expectation.

## Our Mission

- Create an incident free workplace combined with best practice processes, methods, and systems to become the contractor of choice within the markets in which we operate.
- Provide a workplace with a culture and attitude to take on any challenge.
- Foster a network of relationships between Blitz's most important people-our clients and our employees- to drive growth innovation and industry leading delivery.
- Blitz Industrial's success and reputation is built upon a track record of exceeding all safety, quality and performance targets within deadlines.
- Today Blitz Industrial employees over 30 hardworking, skilled and committed tradespeople.

# OUR SERVICES

## Fabrication and Welding

With a workshop based in Gladstone we are able to fabricate offsite from a variety of materials according to the project requirements. We have an inhouse IWS international welding specialist/certificate 10 welding supervisor and IWI international welding inspector to ensure all fabrication is made to the relevant standards.

Our workshop capabilities include but not limited to:

- All general light to heavy fabrication
- Walkways, staircases, platforms, ladders and handrailing
  - Machine guarding
  - Excavator and loader buckets
  - Dozer blades and track frames
  - Conveyor systems
- Crushing equipment and screens
  - Roof trusses and beams
  - Mobile plant repairs
  - Specialised lifting equipment

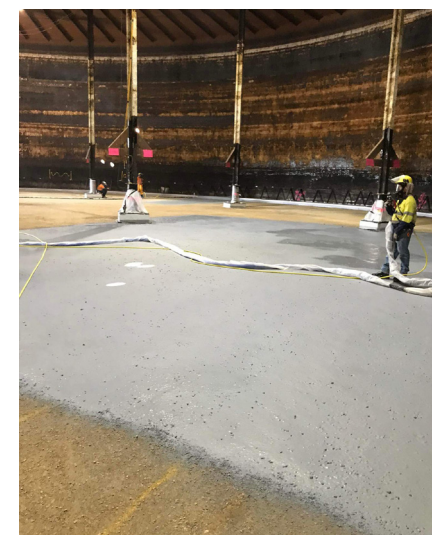

## Blast and Paint

Blitz Industrial Pty Ltd has a dedicated Blast & Paint facility at our workshop in Gladstone. This facility is both efficient and environmentally friendly. We work to rigorous customer supplied specifications, as well as national and international standards.

The blast and paint facilities consist of a fully enclosed Blast Chamber. To compliment this, we also have a designated paint chamber.

Our team also offers onsite Blast and paint services for both shutdowns and projects.

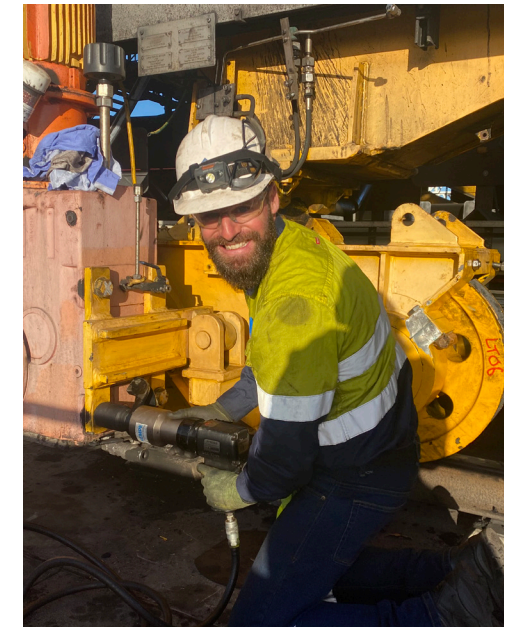

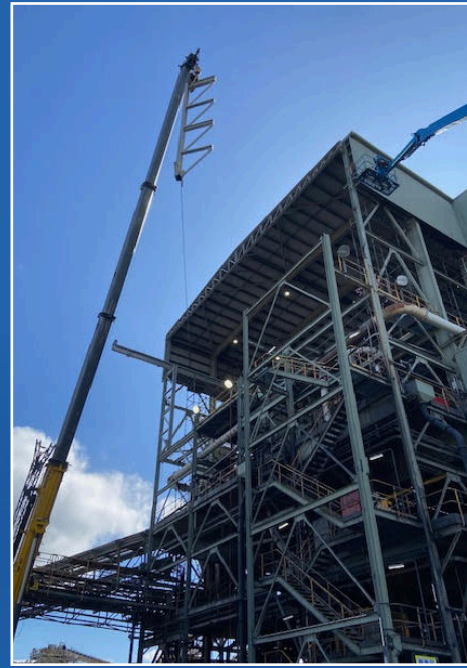

# Cranes and Rigging

Blitz have extensive experience in cranes and rigging. This includes but not limited to:

- Steel erection
- Construction rigging
- Maintenance rigging
- Telecommunications
- Skilled Labour hire
- Precast panel installation
- Tower crane installations, dismantles and climbing
- Mobile crane hire
- Plant and machinery rigging

## On-Site Personnel

At Blitz Industrial we aim to attract and retain the most talented people within the industry. We believe our people are our most valuable assets and the foundation for our future. We look to upskill all of our employees and have regular meetings with each of our employees to develop training plans tailored to each person.

Our onsite personnel include:

- Project managers
- Supervisors
- Welders
- Mechanical Fitters
- Boilermakers
- Doggers
- Riggers
- Crane and truck drivers
- Operators
- Skilled trade assistants
- Diesel Fitters

## Diesel Fitting & Field Service

Blitz Industrial offers professional diesel fitting and field service support to meet the needs of our industrial and heavy vehicle clients.

Our experienced diesel fitters are equipped to perform on-site repairs, diagnostics, and preventative maintenance on a wide range of machinery, trucks, and equipment.

Whether it's scheduled servicing or urgent breakdown support, we provide fast, reliable mobile service to minimise downtime and keep your fleet or site running smoothly.

## Marine

Our specialist aluminium division fabricate custom recreational fishing boats, custom aluminium trailers as well as commercial boats to survey, we take pride in the quality we produce.

Our capabilities include:

- New boat builds
- Repair and maintenance
- Blast and paint/antifouling
- Sea trials and delivery
- Mechanical and hydraulic installations
